Eldorado Outdoor.
The Building Blocks for Luxury Outdoor Spaces.
Outdoor elegance.

There's nothing quite like the pleasures of an evening dining alfresco. Extending your living space to the outdoors is no longer just a trend, but a lifestyle worth attaining.
Eldorado Outdoor has redefined how to build outdoor living spaces with a collection of strong, yet lightweight building blocks. The blocks quickly assemble into custom barbecue islands, kitchen counters, fireplaces, fire pits and more—ready to be dressed with Eldorado Stone and Brick within hours.

Eldorado Outdoor saves time, materials and installation costs, all while allowing you to customize and design the perfect outdoor retreat. Eldorado Outdoor products quickly assemble into a virtually limitless combination of configurations. Each piece is made of glass-fiber reinforced concrete (GFRC) which can be installed on any solid flooring surface without concrete footings or rebar.

Eliminated is construction waste and additional time associated with traditional masonry block installations. Eldorado Outdoor products can be assembled in just hours; even cut-outs for custom features such as barbecues, sinks, drawers and burners can be done on-site.
The sheer magnitude of materials, time and manpower required to build a CMU Concrete Block kitchen compared to Eldorado Outdoor is well illustrated in this “example”. Eldorado Outdoor allows you to create beautiful and authentic masonry outdoor spaces in less than half the time compared to traditional building techniques. The strong, yet lightweight material doesn’t require additional concrete footings, bending rebar, or any of the mess, waste and time associated with CMU installations.

Eldorado Outdoor Vs. Concrete Block

Eldorado Outdoor is manufactured with an Integrated Factory Scratch Coat. The scratch coat eliminates any additional prep work and is ready to immediately receive stone or brick, creating a real time saver. Since the scratch coat is integral to the cabinet design, it also guarantees a consistent groove depth allowing for a very strong sheer bond between the cabinet and stone veneer.

Because Eldorado Stone replicates natural stone, variations should, and can be expected. Even though colors in this brochure are as close to the actual stone as possible, photographic and printing techniques — and actual viewing conditions — can alter perception of color.
